

LEANERP™ is Pragmatek's Business Process Technology Alignment

A Signature Service That's Powerful and Proven With Consistently Big Payoffs

HOW IT WORKS

- ◆ **Pragmatek's** exclusive **LEANERP™** methodology assesses the current state of your ERP system to uncover inefficient transactional processes and functions that need improvement.
- ◆ **LEANERP™** develops a prioritized short list of high impact projects that will drive more efficient ERP transactions to generate significant annual cost savings.
- ◆ **LEANERP™** maps these improved processes back to your technology/ERP backbone, redesigning them for greater efficiency.
- ◆ **LEANERP™** drives multi-million dollar payoffs with annual hard cost savings.

LEANERP™ DELIVERS OUTSTANDING ROI

- ◆ It identifies and prioritizes a self-funding portfolio of projects that you should attack first
- ◆ It drives multi-million dollar transactional cost savings that can flow directly to increase profits.
- ◆ **PRAGMATEK** cuts to the chase and makes the tough decisions with you and for you

WHAT'S YOUR BUSINESS PAIN?

- ◆ Is your month-end close done in a timely and effective manner?
- ◆ Are you getting your money's worth from your I/T ERP spend?
- ◆ Is your business running on spreadsheets rather than using your ERP software?
- ◆ Do you have difficulty obtaining useful information to make solid business decisions?
- ◆ Do you have business processes driving unnecessary costs such as rework and extra headcount?
- ◆ Are your business units frustrated? Do they start 'back door' I/T projects to try to patch up your ERP System to make it work as intended?

PRAGMATEK's LEANERP™ addresses all of these concerns...and more. It's a proven remedy for companies with sales from \$50 million to \$10 billion or more. The average company utilizes only 20-30% of valuable and available functionality that resides in their ERP systems. Let us help you understand how to utilize the other 70-80%.

Pragmatek's consultants have the eyes for business problems, the nose for trouble plus the intuition, training and experience for tough decisions on your behalf. We're happy to share in-depth examples at your convenience. Contact Pragmatek today.

WHY SHOULD IT MATTER TO YOU?

When your business processes aren't aligned with SAP technology, your transactions are inefficient, overly complex and generate unnecessary additional costs due to poor data, process rework or lost worker productivity. Companies using Pragmatek's LEAN SAPERP™ methodology can save millions of dollars annually by solving these issues, easing your angst over your I/T spend.

***"We identified \$20m
in ANNUAL savings
using PRAGMATEK's
LEANERP™
methodology."***
